

# THE OFF ROAD SLIPPER ARE COMING FOR CO-DRIVERS AND MECHANICS

Developed and manufactured in France by Stand 21, Daytona "Off Road" boots provide a lot of innovation regarding co-drivers and mechanics technical needs.

Directly extrated from the driving boots, these new boots include performant technical features for the safety (SBR sole fire retardant plus oil and gaz resistant, reinforced stiffer heel, FIA 8856-2000 homologated...) and efficient solution for the comfort (Nubuck leather, countoured padded tongue, low cut for an ankle mobility, walking comfort...).

Available in April 2003, you can customise them (nubuck and sole colour + embroidery).  
Minimum order is only 30 pair of boots.
